

Identropy, Inc. to Bolster Identity Management Team and Service Offerings with Acquisition of Earthling Security

Identropy, Inc. and Earthling Security, Inc. announced today that they have entered into an agreement pursuant to which Identropy will acquire Earthling Security, an identity management and information security company based in Silver Spring, MD.

New York, NY (PRWeb) April 4, 2007 -- Identropy, Inc. and Earthling Security, Inc. announced today that they have entered into an agreement pursuant to which Identropy will acquire Earthling Security, an identity management and information security company based in Silver Spring, MD.

Identropy, Inc., a leader in identity management delivery services will bolster their delivery team by expanding an already deep knowledge base in the identity management arena. "This acquisition both enhances our technical delivery team, while providing us relationships in the government sector," said Victor Barris, CEO of Identropy. "Earthling's identity management delivery team consists of industry veterans, and we are looking forward to them joining our team."

The combination of Earthling's technical talent and Identropy's proven rapid identity management delivery technologies will aid clients efficiently deploy identity solutions, as well as aid them demonstrate compliance with regulatory requirements.

"We are very excited about joining the Identropy team," said Yusuf Ahmed, chief executive officer of Earthling. "Together, we believe we can establish a leadership position in the identity management market. Identropy's rapid delivery appliance, iRim, will allow our consultants to quickly and efficiently deliver robust identity management solutions to our clients."

iRim is an appliance pre-loaded with vendor Identity Management (IdM) software, a workflow library and a pluggable architecture that allows clients to quickly validate IdM platform sales promises. Since iRim is pre-configured with common identity management scenarios, client corporate data and business processes can be quickly integrated in order to rapidly deliver an Identity Management solution.

About Identropy

Identropy is a security & identity management consultancy, with extensive expertise in aligning business processes to technology and deploying identity management solutions. Identropy's iRim package allows for rapid integration of identity management systems based upon well-established security principles, reducing deployment time by up to 30%.

About Earthling

Earthling Security provides a range of data security engineering and integration services for both local and wide-area networks. Services include information security policy writing, network security design & review, penetration testing and identity management.
